THERMOTECH

Parwez Ahmed, Director

A Trusted Partner for Industrial Insulation Solutions

India's industrial insulation sector is poised for transformative growth, fueled by evolving trends and increasing demand for energy efficiency. The sector holds immense potential, driven by a surge in infrastructural projects and a push towards sustainable practices. The scope for growth lies in innovative Thermal Insulation, Refractory Work, Insulation Materials & Acoustic Services. Nevertheless, challenges in the form of finding quality solutions from trusted partners pose obstacles for clients seeking to advance their facilities through proper insulation installations. Combating these challenges and delivering tailored solutions that suit individual client needs is Thermotech- a 2006 founded and Indore-based insulation solutions firm.

Tailored Solutions

Thermotech has emerged as a leading provider of top-notch insulation services and materials in the industry since its establishment. Specializing in thermal insulation services, thermal insulation contracting, LRB rockwool mattresses, and glass wools, the company prides itself on delivering meticulous services aligned precisely with client specifications. With a commitment to excellence, Thermotech ensures timely completion of projects, fostering unparalleled trust and satisfaction among its esteemed clientele. Utilizing cutting-edge technology and advanced machinery, the firm adheres strictly to international quality standards, maintaining an unwavering focus on delivering products and services of utmost quality. Thermotech's relentless dedication to quality assurance remains at the forefront, achieved via its cutting-edge infrastructure, distinguishing it as a trusted entity in the realm of insulation and ducting services. Furthermore, Thermotech has successfully completed the thermal insulation tender of Asia's Biggest Bio-CNG Plant - GPS Renewables located at Devguradia, Indore.

"We thrive on our state of the art infrastructure that is developed for offering end to end insulation solutions. Our sound technical support for fabricating, designing, and installing insulating materials, assists in meeting the exact requirements of the clients. Our organization has invested heavily to possess a state of art infrastructure which aids us in ensuring that we offer quality-based services to our clients. We possess a well-furnished unit which is installed with the latest machines and equipment and advance testing amenities. These amenities help us in the application of advanced technology as per the industry recommended standards", shares Parwez Ahmed, Director.

Thermotech's insulation services stand as a cornerstone

across diverse industries including Cement, Iron & Steel, Chemicals, Power Projects, Starch/Glucose, Sugar & Distilleries, Textiles, Fertilizers, Edible Refineries, and more. This remarkable growth has resulted from the firm's unwavering commitment to quality.

The company boasts a dedicated team of quality checkers responsible for upholding and monitoring the flawless execution of services and products. The team's constant vigilance ensures the continuous refinement of services, keeping abreast of dynamic market trends. Thermotech further prioritizes client convenience, executing projects efficiently and in accordance with their schedules.

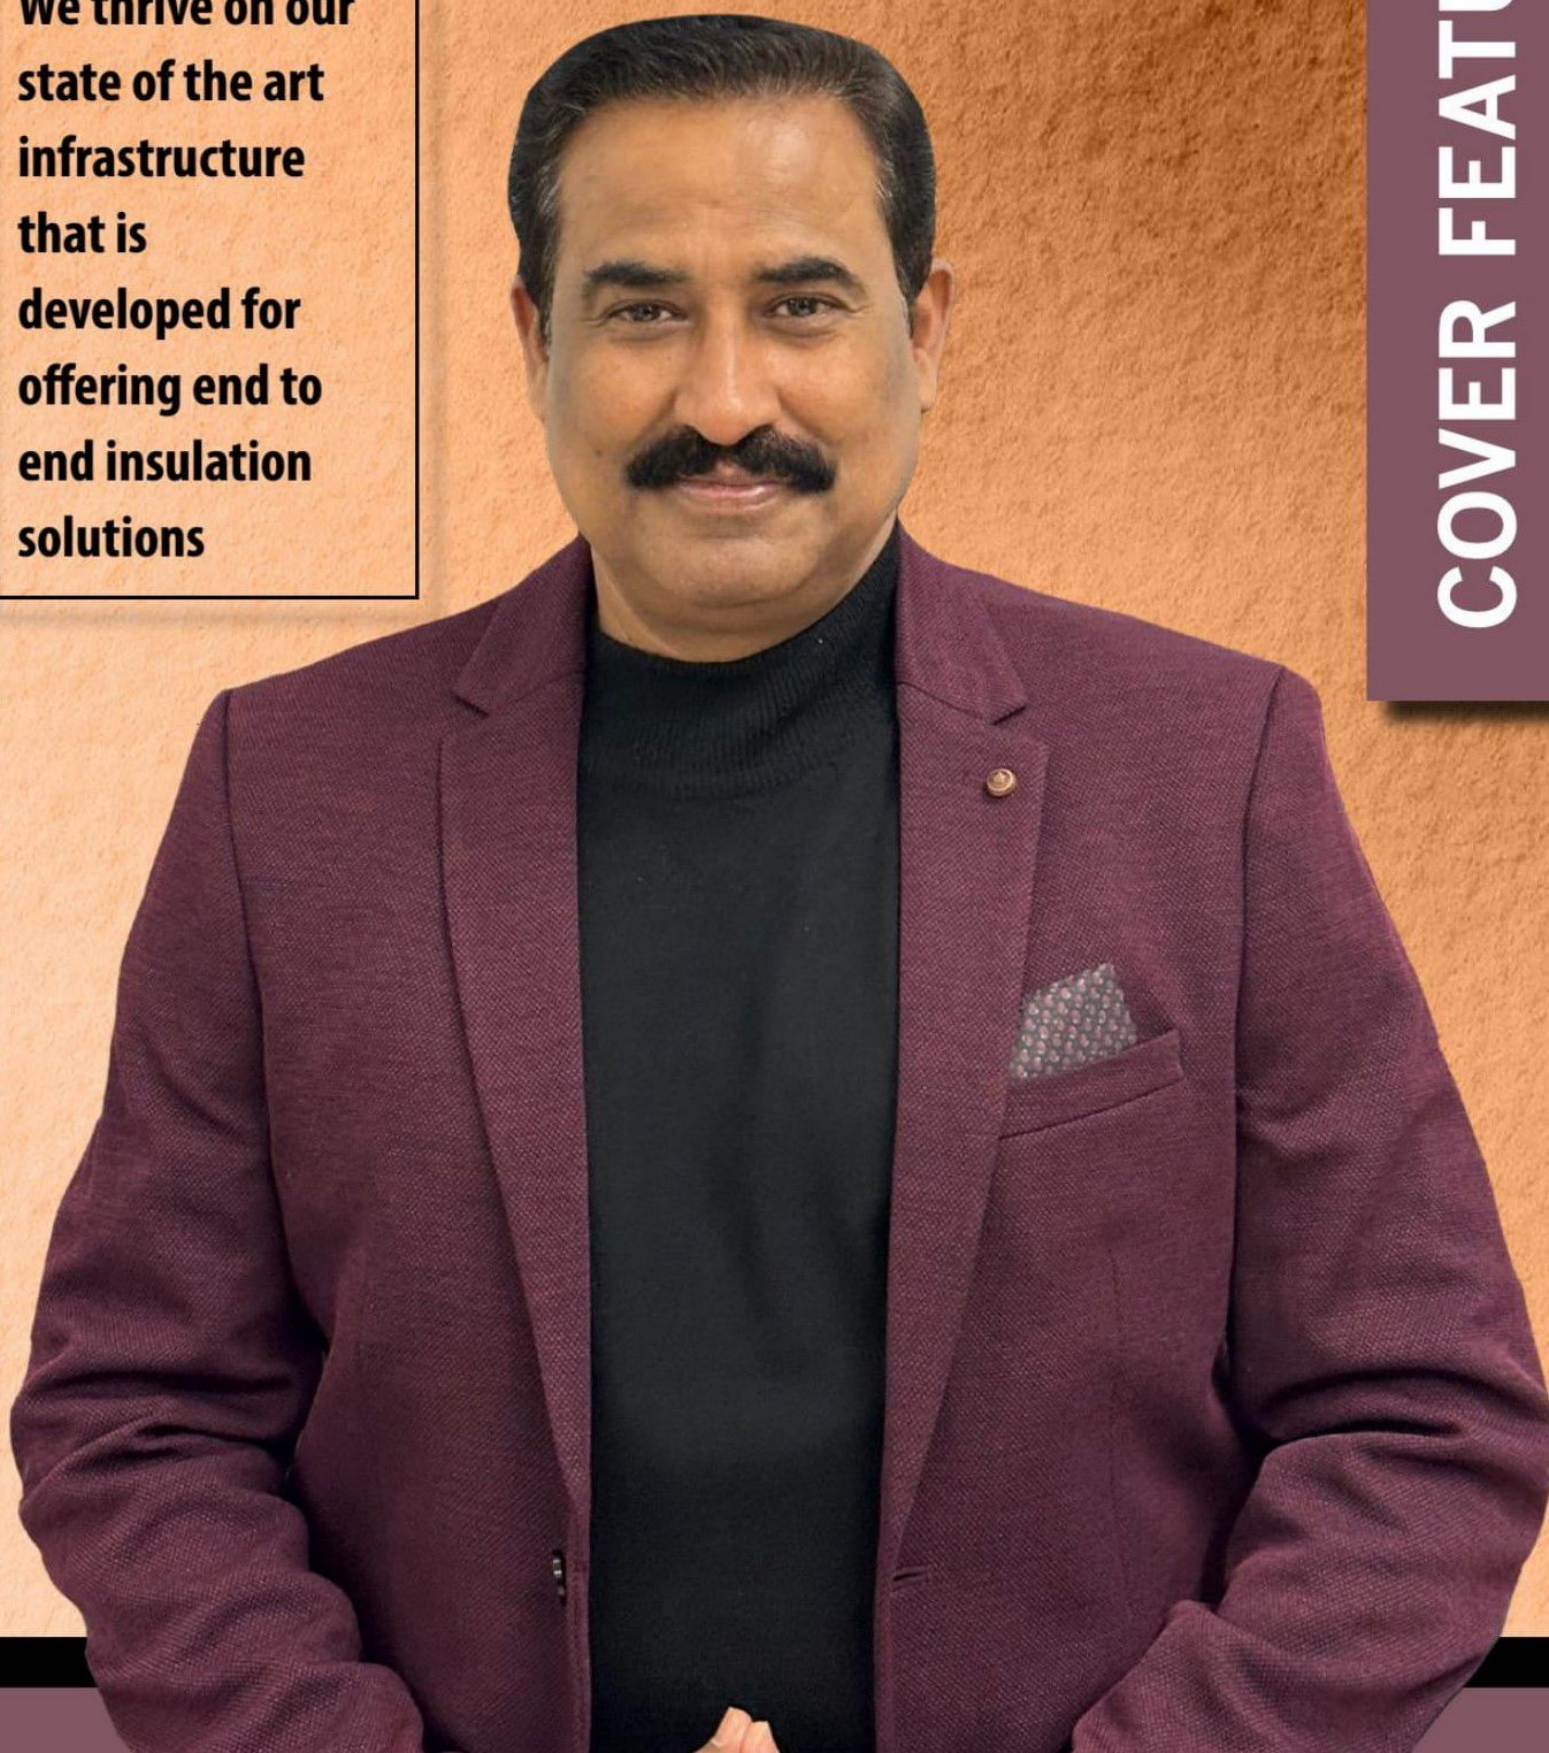

Beyond quality assurance, safety remains at the forefront of Thermotech's values. Emphasizing a 'Zero Tolerance' policy towards safety, the firm prioritizes a safe working environment by perpetually maintaining secure work practices. Committed to enhancing safety measures in all aspects of operations, Thermotech ensures strict compliance with regulations and laws governing trade.

With the guidance and encouragement of the Mentor – Parwez Ahmed, the company is able to establish itself as an eminent organization. His vision, motivation, and commendable persona have enabled the company to stand tall on the expectations of its patrons all over. Aligned with his vision, the company's mission is to achieve consistent growth and deliver superior performance to become one of the leading insulation and refractory companies in India.

Thermotech's holistic approach towards maintaining complete client satisfaction while fostering a safe working environment has put the firm in a favorable position. These core values have propelled the firm towards unparalleled achievements thus far and are expected to keep enabling the firm to grow in the years to come.
